Class: 5B Group 2

A present for Miss Brennan

Miss Brennan's birthday is coming. I need to prepare a beautiful present for her and I have a good idea.

Miss Brennan teaches so many classes a day and she really needs good health. I am going to use ceramics to make a changing colour mug. I add some thermosensitive pigment in the ceramics and mix them well. Then I pinch out the shape of the mug. The mug is big with a heart shape handle. After that, I wait for the ceramics to dry. I draw a cute cat on the mug because Miss Brennan likes cats most. I draw a brown cat with long hair. I finish the mug. It is so beautiful, funny and practical.

It is used for holding hot water or milk because Miss Brennan doesn't like to drink water. I think this mug can attract her to drink more water because it is so interesting and beautiful. Drinking water is good for our health. I hope she can drink more water with this mug.

I think this is a perfect gift for Miss Brennan . I hope she would like it. I bless her happy birthday and I hope her to use this mug to drink more water and have good health.

Teacher's comment: Well done! You are so sweet. I think Miss Brennan will definitely drink more water with the mug .
