## Save the pandas

Dear readers,

I am the chairman of Environmental Club and I am writing because I want to save pandas.

Pandas are facing land pollution problem. People dump rubbish everywhere. Therefore, the pandas do not have enough space to live. People should stop dumping rubbish everywhere.

Pandas are also facing living problems. People keep destroying bamboo forests. Therefore, the pandas do not have enough food to eat. People should stop destroying bamboo forests.

Lastly, people keep polluting the air. Therefore, the pandas do not have fresh air to breathe. They will become sick. People should stop polluting the air.

In the end, you should help the pandas by donating money for our club.

Your sincerely,

Wing

*Teacher's comment: The content of the letter was clear and easy to read. There are some good ideas to save the pandas. Good work!*
